Professional Summary

Experienced Android Native Application Developer with over **10 years of expertise** in **designing**, **developing**, and **maintaining** high-performance, secure, and scalable Android applications. Proficient in Java and Kotlin, with hands-on experience in **React Native**, **PhoneGap**, and **Objective-C**. Specialized in building **Banking**, **Finance**, **Fintech** and **IoT-based** mobile applications with a strong emphasis on **security**, **performance optimization**, and **clean architecture**. Proven leadership in guiding **cross-functional teams**, delivering enterprise-grade solutions, and implementing **CI/CD pipelines**.

Technical Skills

Mobile Development: Android Native Development, PhoneGap, Apache Cordova
Architecture & Design Pattern: Clean Architecture, Solid Principle, Modular Design, MVVM, MVC, MVP, View Binding, Data Binding, Live Data
Testing & QA: Unit Testing, JUnit, Mockito, Appium
Tooling & DevOps: Firebase Crashlytics, Firebase Analytics, GitHub Actions
AI & Productivity Tools: Chat GPT (Writeups , Reports, Presentation), Microsoft Copilot (Code assistance, Test generation), Gemini AI (Code assistance, Optimization, Test generation)
Leadership & Collaboration: Sprint Planning, Task Allocation, Team Guidance, Team Co-ordination, Stack Holder Communication
Language & Platform: Java, Kotlin , React Native, React JS, HTML, Objective-C, jQuery, HTML, CSS
IDE's & Tools: Android Studio, Visual Studio , Telerik AppBuilder
Libraries & SDK's: Realm, Room, SQLite, Firebase, ML Kit, Google Map, Payment Gateway, Camera, Bluetooth, Coroutine, Hilt, Location, RxJava, MVVM, Jetpack Navigation Components, Pagination, Retrofit, Azure Authentication, Firebase Cloud Messaging (Push Notification), Third Party SDK Integration, Background Services, Work Manager, Job Scheduler, Platform Science , Appdome, Promon, Jetpack, Rest API, JSON
Analytics & Monitoring: Firebase Crashlytics, Firebase Analytics, Google ANR & Crashes
Version Control & CI/CD: Git, GitLab, GitHub, Jenkins, SVN, Azure, Play store deployment, App Signing , App Bundles
Project Management: Agile, Scrum, Waterfall

Professional Experience

Team Lead

Trane Technologies – Chennai, India | Feb 2025 - Present

- Led and guided cross-functional teams in the design, maintenance, and management of Android applications published on the **Google Play Store**, ensuring timely security updates, optimized performance, and compliance with banking and enterprise standards.
- Implemented advanced architectural improvements using **MVVM** and **Kotlin Coroutines**, reducing boilerplate code and enhancing app responsiveness.
- Applied **SOLID** principles to improve code maintainability, testability, and scalability, ensuring long-term product stability.
- Created multi-resolution adaptive interfaces compatible with tablets and mobile devices, ensuring a seamless experience across all orientations and screen sizes.

- Integrated **React Native** modules with native Android components to enable **cross-platform compatibility** and streamline the development cycle.
- Enhanced performance and memory efficiency using **Android Profiler** and in-built Android Studio analysis tools.
- Implemented **Bluetooth** communication and **camera** features for proximity-based device detection and secure data exchange.
- Re-engineered the **Thermo King Connect** global transport refrigeration application, achieving improved scalability, performance, and user experience.
- Delivered the Platform Science (In-Cabin Technology) Android application, enabling real-time monitoring and control of temperature data in refrigerated trailers.

Senior Software Engineer

Tagit India Pvt Ltd – Chennai, India | Jan 2019 – Feb 2025

- Upgraded Android applications using the latest native frameworks and modern Android development tools.
- Introduced advanced security measures including Session Token Authorization, OAuth, ProGuard, and Keystore validation to ensure robust data protection.
- Incorporated cutting-edge security frameworks such as **Appdome** and **Promon** (AI-based security solutions) to establish an additional layer of data and application security.
- Directed end-to-end development for major banking projects including **Citibank IN**, **AU 0101**, and **Axis Bank**, ensuring adherence to stringent security and performance standards.

Software Engineer

ParamPriti Web – Chennai, India | Apr 2017 – Jan 2019

- Independently developed and launched the Finzapp Android application on Google Play Store
- Followed structured SDLC: created Proof of Concept (**POC**), High-Level Design (**HLD**), and Low-Level Design (**LLD**) documents, with formal sign-off from Product Owner before implementation.

Junior Software Engineer

Genesis Circle – Chennai, India | Nov 2015 – Apr 2017

- Enhanced Qtanium Connect, an IoT-based hybrid mobile application, using PhoneGap and Telerik AppBuilder to ensure cross-platform compatibility and performance.

Education

- Bachelor of Technology (B.Tech.) – Information Technology
  Pannai College of Engineering and Technology, Anna University
  2010 - 2014 | CGPA: 7.1/10.0

- Higher Secondary Education (HSE)
  Sourashtra Boys Higher Secondary School
  2009 - 2010 | 67.33%

- Secondary School Leaving Certificate (SSLC)
  Sourashtra Boys Higher Secondary School
  2007 - 2008 | 88.6%
